Professional Summary

Frontend Developer with over 3 years of experience building modern, responsive web applications. Skilled in React, Next.js, Tailwind, and integrating backend APIs. Experienced in remote collaboration, product-focused builds, and shipping MVPs for startups. Passionate about crafting scalable solutions in both SaaS and consumer-facing platforms.

Professional Experience

Frontend Developer – CodeNoire (Remote) | Feb 2022 – Jul 2024
 • Built and maintained responsive, user-friendly web applications using React, Next.js, and TailwindCSS.
 • Collaborated with designers, backend engineers, and product managers in a remote-first environment.
 • Optimized performance and accessibility across multiple client projects.
 • Integrated REST and GraphQL APIs to deliver seamless user experiences.

Independent Contractor – Freelance (Remote) | Aug 2024 – Present
 • Built scalable, production-ready frontends using React/Next.js with modern UI libraries.
 • Produced and managed digital content, including social media videos and interactive experiences.
 • Shot and directed mini-documentaries (e.g., Bronx graffiti legend Ban2) and created content that went viral on TikTok and Instagram, including reposts from @newyorkers (1M+ followers) and engagement from notable figures like Fat Joe.
 • Built Expo/React Native interfaces for apps like Skimmers, focused on real-time fraud detection for NYC users.

Technical Skills

Languages & Frameworks: HTML, CSS, JavaScript, React, Next.js, Node.js
Tools & Platforms: Git, GitHub, Vercel, Expo

Education

Self-Taught Software Engineer – Project-based learning across AI, SaaS, and creative platforms
High School: The Urban Assembly School for Careers in Sports, 2014 – Bronx, NY
